Facility Use

Stillaguamish Valley Learning Center is located adjacent to Post Middle School and Eagle Creek Elementary Schools. The campus has 10 portable buildings, a playground, a nature trail and surrounding open spaces. You are invited to become an active part of our school.

The community is welcome to use the facilities after school operating hours have ended. At this time, a few organizations use the facilities for regular and occasional activities. Community use is encouraged and may be scheduled by contacting Katherine Ray at the district office at 360.618.6255.

School Improvement Plan

The Stillaguamish Valley Learning Center is implementing school improvement practices for all seven Indistar expected indicators in 2017-18. The principal will keep a focus on instructional improvement by working with teachers to implement identified instructional strategies with fidelity. We will provide high-quality professional development through monthly work sessions. Full implementation of new district-adopted curricula is a goal this year. We will also provide an extended learning opportunity for students in grades 6-8 called "Wednesday School." Furthermore, staff will implement district adopted and state interim block assessment tools, while identifying the most effective remote learning curriculum resources. Lastly, we seek to provide a safe and supportive school climate for our community with the help of the Parent Leadership Team. We expect to see well-attended events, regular supervision on campus, parents being vocal about improvements to the program, a clean Family Room, and assisting new home schooling parents with an assigned mentor.

Arlington Public Schools educates all students, preparing and inspiring them to graduate and seek their full potential as lifelong learners.
